ITA14 – ETHICAL HACKING

EXPERIMENT 1

Execute and display the results for the following commands in Kali Linux Operating System: rm command, users command, tree command.

AIM

To execute and display the results for the rm, users, and tree commands in Kali Linux Operating System.

REQUIREMENTS

1. Kali Linux Operating System
2. Terminal

PROCEDURE

A. rm command

```
$ touch sample1.txt
$ ls
$ touch sample2.txt
$ ls
$ touch sample3.txt
$ ls
$ touch sample4.txt
$ ls
$ touch sample5.txt
$ ls
$ rm sample5.txt
$ ls
```

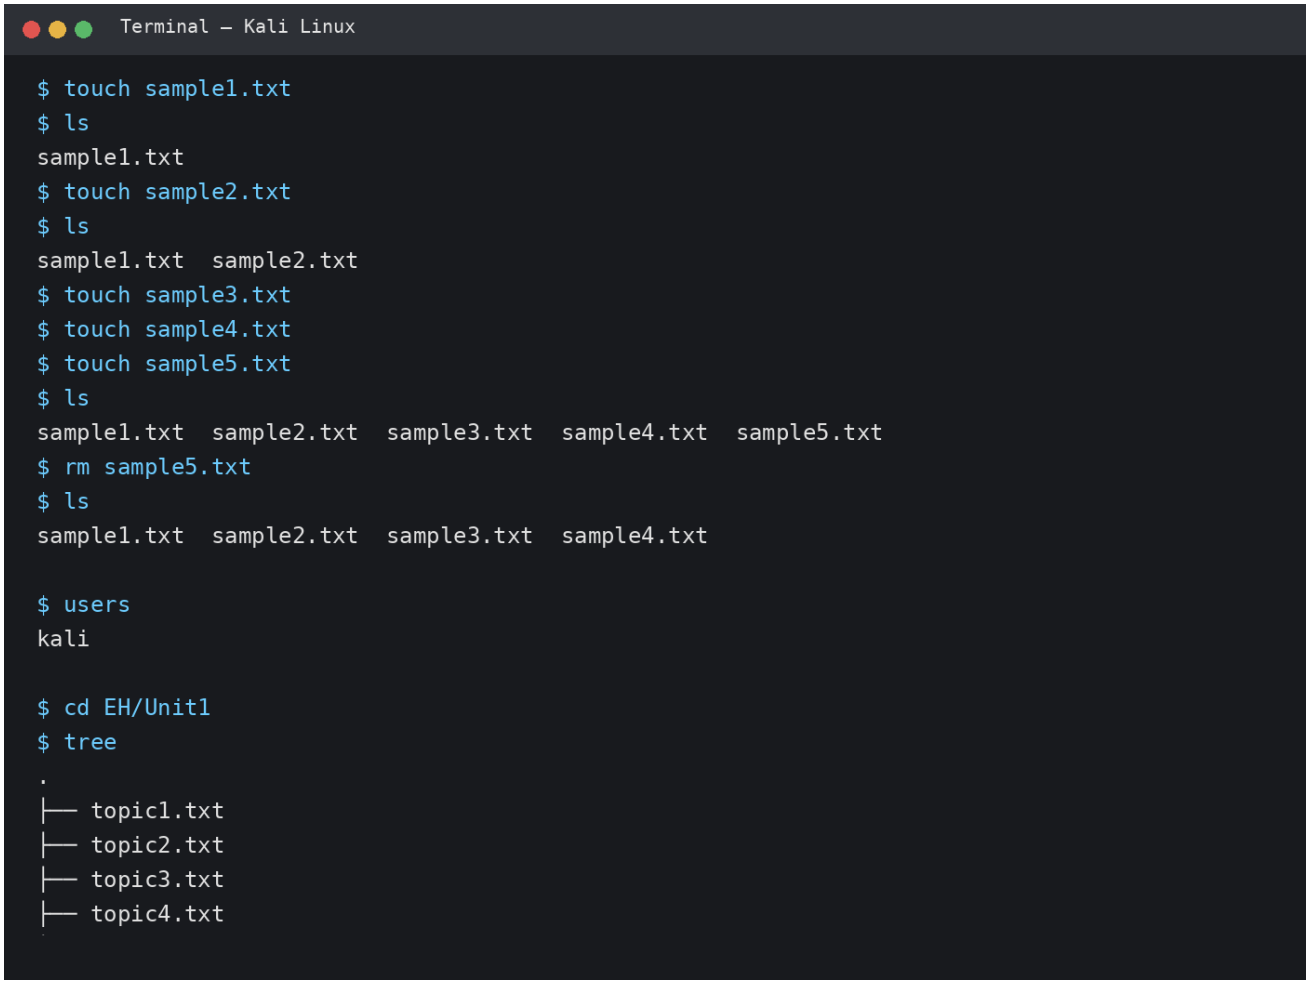

B. users command

```
$ users
```

C. tree command

```
$ tree
$ mkdir EH
$ cd EH
$ touch file1.txt
$ tree
$ mkdir Unit1
$ cd Unit1
$ touch topic1.txt
$ touch topic2.txt
$ touch topic3.txt
$ touch topic4.txt
$ touch topic5.txt
$ tree
```

OUTPUT

RESULT

The rm, users, and tree commands are used to remove a file, display logged-in usernames, and display directory structures in Kali Linux, respectively.
